FOR IMMEDIATE RELEASE

VJ Electronix Selects InterCEM Ltd. as Its Exclusive Distributor in Korea

March 2011 — VJ Electronix, Inc., the leader in rework technologies and global provider of advanced X-ray inspection systems, is pleased to announce that it has appointed InterCEM as its exclusive distributor for Korea.

InterCEM will represent and resell VJ Electronix products throughout Korea and to Korean national companies located throughout Asia. According to InterCEM President JC Lee, "InterCEM has added a valuable piece to its comprehensive range of manufacturing and test equipment."

InterCEM, located near Seoul, Korea, has more than a decade of experience selling and supporting equipment such as screen printing, pick-and-place, reflow, inspection, die bonders, cleaners, materials, and now rework and X-ray.

"InterCEM is a great fit for our global VJE sales and support team. JC and his company have a great reputation for helping customers to select the right equipment and especially for after sales support," said Donald Naugler, President of VJ Electronix.

With 20 years experience in the electronics industry, VJ Electronix has a complete range of machines that are used in different fields whenever a high technology level is required, e.g. military, medical, NDT, etc. The appointment of InterCEM is a key step in the company's strategic efforts to raise its profile in the Korean market.

InterCEM will represent VJ Electronix's full line of automated rework and X-ray inspection solutions throughout Korea. For more information about interCEM's products and services, contact JC Lee, President, at +82-31-458-1300 or on the Web at www.intercem.co.kr.
